

John P. McGlone

Lead iOS & Product Engineer

Roanoke, VA · Open to remote roles

jpmcglone.com/resume

PROFILE

I'm an iOS engineer and technical lead who takes products from architecture to production. I was the sole iOS developer for Rumble Studio and contributed substantially to Rumble Video. My work also spans full-stack development and product architecture. AI is central to how I work. I use Cursor and ChatGPT Codex with hands-on review and ownership of what ships. I build and run Men of Hunger, a men-only social media platform. I like lean teams, clear technical direction, and helping other engineers do their best work.

I'm looking for a remote, hands-on lead role: shipping products, guiding a lean team, and helping the right company adopt AI or take its existing work further.

CORE SKILLS

iOS: Swift, SwiftUI, UIKit, Swift concurrency · Architecture & full-stack development

AI: Cursor, ChatGPT Codex, Claude, agentic coding, MCP servers · Web: Nuxt, Vue, TypeScript

EXPERIENCE

Men of Hunger

2026–Present

Creator & Engineer · Nights & weekends

- Build and run a men-only social media platform, owning the full stack, architecture, and production delivery.
- Build and maintain a custom MCP server for admin insights and scheduling posts and newsletters; use agentic coding with hands-on review throughout development.

Rumble

2023–2026

Lead iOS Developer · Studio & Video

- Sole iOS developer for Rumble Studio, owning development and delivery across iPhone, iPad, and Vision Pro
- Partnered closely with design to raise the quality of the mobile experience and turn ambitious product ideas into shipped iOS features
- Delivered substantial iOS development for Rumble Video alongside sole ownership of Studio

Callin

2022–2023

Lead iOS Developer

- Developed a social audio and video platform from the ground up
- Implemented low-latency audio streaming using Agora.io

Epihealthy

2022

Lead iOS Developer · Contract

- Developed a real-time seizure detection app using CoreBluetooth for continuous health monitoring

Rite Aid

2021

Senior Product Mobile Specialist · Contract

- Revamped mobile development workflow by implementing modern CI/CD practices across platforms

John P. McGlone

EXPERIENCE CONTINUED

Supersapiens

2020–2021

iOS Engineer · Contract

- Developed SwiftUI charts for real-time glucose data with smooth animations

Walmart Labs

2020

Senior iOS Developer · Contract

- Contributed to the development of Walmart's newest app, leveraging UIKit and SwiftUI to replace the legacy system

Airside Mobile

2019–2020

Senior iOS Developer

- Developed a SwiftUI-based app using MVVM and dependency injection for improved testability

AD:60

2019

Lead iOS Developer

- Developed a financial education game featuring complex animations and state management using UIKit, CoreAnimation, and Lottie

Eligible

2017–2019

Lead iOS Developer

- Developed a healthcare eligibility SDK for insurance coverage checks
- Led technical integration calls, assisting major healthcare providers in adopting our SDK

Layer

2016–2017

Senior iOS Developer

- Refactored messaging SDK architecture to simplify integration

Imgur

2015

Senior iOS Developer

- Engineered a UICollectionView-based image grid with smooth scrolling

DocuSign

2013–2014

iOS Developer

- Implemented StoreKit-based in-app purchases for subscriptions
- Implemented dynamic content loading to reduce app size

Workday

2011–2013

iOS Developer

- Won a company-wide hackathon with an innovative drag-and-drop goal management system

Northern Kentucky University (NKU)

2009–2011

Freelance Mobile Developer · Contract

- Built PulsePoint (originally firedepartment.mobi), a first-responder geolocation app

EDUCATION

Nassau Community College · 2006–2009

A.S. in Computer Science · Double major studies: Mathematics & Computer Science.

Computer Science GPA: 4.0 · Overall GPA: 3.8
